

Hideo Nagasawa
Manager, Quality Assurance/EHS Office
Moritex Corporation

A handwritten signature in black ink, appearing to read 'H. Nagasawa', with a horizontal line extending to the right.

Product Advisory Statement

Date : September 19, 2012
Ref.# : QDGZ-003-00309-A
Subject : Production Change Notice
"Change of material, aluminum alloy"

Dear valued customers:

We cordially inform you that the following changes will be or have been made on our products and the relevant production processes. Should you have any further enquiries, please contact your sales representative.

Details :

- 1 Products to be affected
Moritex standard products, OEM products and product manufactured along with our customer's specifications.
- 2 Description
The number of aluminum alloy will be changed to "6061" from "5056, 5052 or 6063" for the parts/components which are currently used in our products.
- 3 Implementation
December 1, 2012 and after.
- 4 Reason
It is to procure aluminum alloy material constantly.
- 5 Quality Assurance
It is in accordance with ISO9001(Quality management system) in our production lines.
- 6 Remarks
There is no impact/affect in terms of optical characteristics and physical performance due to the change of materials.
Besides, the additions/revisions on appearance drawings and specifications are not scheduled.
