

Product Advisory Statement

Date: 05-Apr-13
Document Number: QDGZ-003-00333-01
Subject: **Change Material made of multicomponent glass optical fiber
for Optical Fiber Light Guide**

Dear valued customers:

Thank you for using Moritex products.

We cordially inform you that multicomponent glass fiber will be changed to lead-free optical fiber (SCHOTT product). Please find the details below.

Hideo Nagasawa
Office Manager
Quality Assurance/EHS
Moritex Corporation

Details:

1 Product to be changed

Optical fiber light guide standard products made of multicomponent glass optical fiber

2 Description

Multicomponent glass optical fiber material will be changed to "green" fiber PURAVIS™

3 Timing of change

Will be changed gradually from the production in December 2013

The timing of changes in sales will vary due to the status of stocks of each product.

4 Reasons

Lead-free product is a part of our effort to be environmentally friendly.

Also, it provides better performance than existing products.

5 Remarks

Regarding customized products, please contact your sales representative.
