Dear Valued Customers and Partners,

This letter is to serve as the official announcement from MORITEX for the end-of-life of the ColdVision Series LLS 3 LED Light Source manufactured by SCHOTT. In an effort to continue to introduce new and state-of-the-art products into the market with the latest technology, SCHOTT has, with MORITEX's guidance, redesigned the LLS 3 for increased light output & efficiency, greatly improved reliability, and more robust remote control functions while maintaining the physical foot-print and backward compatibility with minimal increase in price. The details follow below.

Division: Machine Vision
Manufacturer: SCHOTT North America, Inc.
Products Affected: LLS 3, Cool White and Warm White
Part Numbers: A20970.1/6000 (All versions)
A20970.1/3000 (All versions)
Discontinuation: **February 5, 2016**
* Subject to change based on depletion of light engine inventory
Replacement: **CV-LS (P/N: 20980)**
CV-LS Release: **January 5, 2016 (Samples available now)**

- 1. Description of Issue:** The light engines for the LLS 3 Cool White and Warm White have been discontinued by the supplier. SCHOTT and MORITEX decided to take advantage of this transition to improve the entire internal design while maintaining the compact footprint, backward compatibility and price.
- 2. Actions to Remedy:** MORITEX will offer an end-of-life buy while supplies last only. Customers generally should start the transition as soon as possible and request test samples.
- 3. Risk to customer:** Only a fixed, limited quantity of light engines remain and information for forecasts and consumption from customers is limited.

Your dedicated sales person will follow up with you shortly to discuss the next steps for your end-of-life buy and transition.

We truly appreciate your business and contribution to the success of MORITEX. Should you have any other questions or concerns, please do not hesitate to contact us.

Sincerely,

A handwritten signature in black ink that reads "Jason Baechler". The signature is written in a cursive style with a large, looping initial 'J'.
